50-60cubic Meters Mobile Concrete Batching Plant 50kw Mobile Concrete Drum Mixing Station

Container-type concrete batching plant adopts a standard container structure and integrates the main functional modules of the mixing station, such as the mixing host, weighing system, conveying ...

Cement silos are large-capacity storage tanks used for storing and preserving cement and other fine-grained materials. They are commonly used in concrete production plants, construction sites, and ...

They are the most ergonomic and easily transportable batching plants made by PROTEM, offering one of the highest productivity and aggregates storage capacities in the market.

Foldable power generation and energy storage warehouse is a containerised solar power solution. It combines the features of solar power generation and mobility to provide electricity around the world.

The LPC stationary modular concrete batch plant offers custom design and lower shipping costs. It can fit inside shipping containers and has a wide selection of plant features to meet production needs.

Polygonmachine PCM Series Mobile and Portable Concrete Batching Plants are designed for flexible, fast, and efficient concrete production directly at job sites.
