

A factory in Juba that makes solar inverters

The Juba Solar Power Station is a proposed 20 MW (27,000 hp) solar power plant in South Sudan. The solar farm is under development by a consortium comprising Elsewedy Electric Company of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy consultancy firm also based in the UAE. The solar farm will have an attached battery energy storage system rated at 35MWh. The off-taker is the South Sudanese Ministry of Electricity, Da...

Aptech Africa Ltd. has taken the initiative to introduce solar power solutions in Juba, leveraging the region's abundant sunshine to provide clean and sustainable energy sources.

Aptech Africa has been permanently located in South Sudan since 2011, and is the EPC company of choice for solar installations within ...

The solar installation will benefit over 100 students and staff residing at the hostel by providing a stable and independent power source, thereby reducing reliance on the inconsistent grid ...

This solar power plant is a grid-connected system integrated with 30 MW of diesel generators and has been completed in two phases, each with 13 MWp. All the panels have been ...

The solar farm is under development by a consortium comprising Elsewedy Electric Company of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy consultancy firm ...

This 20-MW solar power plant and 14-MWh BESS is about 6km east of Juba city in Central Equatoria Province, South Sudan. The plant was commissioned on 27 Jan 2025 by Ezra ...

The Solar Farm is located within the compound of the existing thermal power plant in Kondokoro, Juba. The construction is outsourced to Aptech Africa, a Solar EPCC company.

Aptech Africa has been permanently located in South Sudan since 2011, and is the EPC company of choice for solar installations within the country. Its team has carried out the EPC works, ...

Amidst growing concerns over climate change and energy security, Aptech Africa Ltd. has spearheaded a transformative shift towards renewable energy solutions in Juba.

Aptech Africa has successfully designed and installed a 10.9kW off-grid solar PV system at the Juba College of Nursing and Midwifery hostel.
