

A talented person invented a homemade solar power generator

Maria Telkes was a Hungarian-born American physical chemist and ...

But who invented solar generators depends very much on how you look at it. The first scientist to discover that two metal electrodes ...

But who invented solar generators depends very much on how you look at it. The first scientist to discover that two metal electrodes placed in an electrolyte solution produced more energy ...

In the 1860s, August Mouchet came up with solar-powered steam engines.

In 1876, William Grylls Adams and his student Richard Day discovered that when Selenium (Se) was exposed to light, it produced electricity. While it wasn't perfect, it was the first step towards the ...

How to DIY a Solar Power Generator: In this Instructable, you'll learn how to build your own DIY solar power generator using basic components like a solar panel, battery, inverter, and charge controller.

Learn how to build a DIY solar generator inspired by NASA tech. Save energy, reduce your carbon footprint, and harness the power of the sun.

In 1897, American inventor Harry Reagan filed a patent for solar-powered thermo batteries. In 1913, American physicist William Coblentz was granted a patent for a thermal generator. On and on it went ...

Then I decided to build my own DIY solar generator. I wanted something I could use to light up the cabin, power a small fridge, and charge a couple of my gadgets. After reading heaps of ...

Maria Telkes was a Hungarian-born American physical chemist and biophysicist best known for her invention of the solar distiller and the first solar-powered heating system designed for residences.

Over her lifetime, the Sun Queen would earn more than 20 patents, nearly all of which had to do with harnessing the power of that great big burning ball in the sky.

While researching the economics of clean energy innovation, I came across a little-known story: that of Canadian inventor George Cove, one of the world's first renewable energy entrepreneurs.
