

Atess hybrid inverter factory in Argentina

El inversor híbrido trifásico de 150 kW a 480 V es el modelo más potente de la gama ATESS en este rango de tensión, diseñado para grandes instalaciones industriales y comerciales que requieren ...

"Thanks to solar energy stored in lithium-ion batteries, these municipalities have uninterrupted electricity 24 hours a day, 7 days a week, 365 days a year," the ATESS Power, ...

Factory: For factories with higher energy consumption, the 50kw hybrid inverter and 40kw hybrid inverter can significantly lower operational costs and ensure production continuity during grid outages.

Based in Shenzhen, China, ATESS has a sophisticated and automated manufacturing plant. An international service network with offices and warehouses has been built in 5 continents to ensure ...

In Catua, for instance, a 330 kWp photovoltaic system now hums quietly, its energy managed by two ATESS HPS120 hybrid inverters and stored in a robust 819.2 kWh battery system.

Here are the specific configurations: 1 Catua: Installed with a 330 kWp PV system, paired with two ATESS HPS120 hybrid inverters and an 819.2 kWh battery system. 1 El Toro: Equipped with ...

Based in Shenzhen, China, ATESS has a sophisticated and automated ...

We will be showcasing our latest energy storage systems and smart inverters at Expo Eficiencia Energética, with solutions specifically designed for dynamic energy applications across Latin ...

A Chinese solar specialist has brought its power systems to eight remote towns in Argentina's Jujuy province. Their successful completion was part of the "Solar Towns" initiative set ...
