

Automatic Photovoltaic Containerized Unit Purchase Link

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

It integrates advanced photovoltaic modules, inverters, and electrical cabinets into a compact and functional unit. Ideal for remote areas, emergency power supply, and various off-grid applications, ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

Would you like to generate clean electricity flexibly and efficiently and earn money at the same time? With Solarfold, you produce energy where it is needed and where it pays off.

We design a solar container that fits your needs and send you a personalized quote. After you approve the quote, we start building. We'll update you regularly throughout the process. Once ready, collect ...

Plug-and-play solar power containers are integrated energy systems that combine photovoltaic generation, power conversion, energy storage, and control systems within a standardized container ...

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of ...

Customers can customize power capacity, battery storage, inverter types, and auxiliary power sources like diesel generators or wind turbines to tailor the container for specific mission requirements.
