

# Base station outdoor wiring

Installation Instructions To ensure optimal performance and connectivity of your base station, follow these setup instructions.

Connect the wires as shown in the Cellular Wiring diagram below. The three wires (white, black, and green) are attached to the power unit and ground (must be connected to earth ground).

Outdoor Ethernet cables subject to air movement generate electrostatic discharge (ESD). Using a shielded and properly grounded Ethernet cable helps prevent damage to your device.

Wiring an outdoor circuit is not always difficult. Here are some methods to get power from inside your home to an outside appliance or receptacle not fastened to the house (e.g., pole mounted ...
