It features a long cycle life, high safety, high discharge rate, and fast charge/discharge capabilities, providing a reliable power reserve for households. At the same time, its integrated ...

The Three-phase Hybrid Inverter 4-10kW from Huijue is a high-performance, efficient, and flexible solution designed for a wide range of solar energy applications. Available in various models from HJ ...

Professional manufacturer of solar and power inverters, offering grid-tie inverters, hybrid inverters, off-grid inverters, solar batteries, solar kits, and complete solar energy storage system solutions.

PV1800 VHM is a multi-functional inverter/charger, combining functions of inverter, solar charger and battery charger to offer uninterruptible power support in portable size.

Featuring a wide input voltage range and industry-leading conversion efficiency, this high-performance inverter guarantees a steady and reliable power supply by seamlessly integrating with the utility grid.

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...

Our series provide reliable energy conversion in different applications and guarantee a high performance with efficiency at home, business, or industry, in a great power range starting from 3kW up to 50kW.

Designed for residential and small commercial use, this high-frequency inverter delivers 5KW to 11KW output - enough to power a 4-bedroom home in Germany or a boutique hotel in Southeast Asia.
