# Communication green base station wiring rack model

As part of the Green-Go digital intercom system, this rackmount station provides seamless and reliable communication solutions for live events, broadcast studios, and theatrical productions.

Open-frame voice and data communication racks provide easy access and flexible installation for data network components such as PDUs (power distribution units), cable management accessories, and ...

They communicate over the network with other Green-Go digital intercom stations. Each station is connected to a network switch using standard Ethernet cabling. They can be powered over ...
