What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

Can the EU revive solar PV Manufacturing in Europe?

The EU's opportunities are now aligned with the Clean Industrial Deal proposed by the EU Commission, which should help revitalize the Solar PV manufacturing in Europe, although more support measures will still be needed. Kivanc has been added to this edition of Sinovoltaics' Solar Supply Chain Map.

What is the European Solar innovation map?

Furthermore, the map includes equipment manufacturers and European research centers which are the backbone of European solar innovation. This is a dynamic map that allows you to use the filter system and select any segment of the value chain, in any country.

Will holosolis increase Europe's solar manufacturing capacity?

At a time where energy security is high on the agenda, Holosolis is committed to increasing Europe's solar manufacturing capacity. With China currently responsible for 80% of the world's installed photovoltaic modules - compared to 3% for the European Union - Holosolis answers directly to growing concerns about supply sovereignty.
