

GCL Solar Photovoltaic Power Generation Project

A module from GCL System Integration Technology Co., Ltd. achieved a conversion efficiency of 23.43% under low-irradiance operating conditions of 800 W/m², demonstrating ...

Bring Green Power to Life: GCL SI Unveils Renewable Energy Products and Solutions at Intersolar 2023, Commits to Reduce Carbon Footprint with Global Industry Chain Layout

China's first fixed-foundation offshore PV plant fully commissioned: The 400 MW offshore PV project developed by China General Nuclear Power Group (CGN) has been fully connected to ...

It is the world's first gigawatt-scale manufacturing facility for perovskite solar modules. The first phase of the plant, with a nameplate capacity of 1 GW, broke ground in May 2024 and was completed in just ...

This milestone project underscores GCL SI's technical capability in offshore photovoltaics while demonstrating the practical viability of floating solar solutions for island energy...

For this inaugural issuance, GCL Energy Technology has tokenized two strategically significant solar power plants in Hunan and Hubei provinces, with a combined capacity of about 82 ...

The project will leverage Hangzhou-based AntChain's blockchain technology to process asset information and produce virtual tokens attached to GCL Energy's solar power plants, Chen said.

A modern efficient agriculture and PV power project integrating efficient agricultural production, sales, and photovoltaic power generation. The project applied new technologies such as DC 1,500V, ...

GCL System Integration has announced the successful completion of its joint floating solar energy project in collaboration with long-term partner Ocean Sun for the Soneva Secret resort ...

The agreement specifies that GCL Group's subsidiary, Kunshan GCL Solar Energy Materials Co., Ltd. (referred to as "GCL Solar Energy"), will build 2 gigawatt-scale perovskite ...

GCL Solar Photovoltaic Power Generation Project
