

High voltage container generator set

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

This high-voltage container generator configuration supports large-scale data centers with medium-voltage infrastructure. Powered by the renowned MTU engine, it provides efficiency, stability, and long service ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset ...

Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by road or rail worldwide. No matter your region's emission ...

We're excited to expand this pillar with the addition of Centum(TM) Force, the next generation of containerized generator sets that establish new benchmarks in footprint optimization, layout flexibility, ease of ...

We offer customized containerized diesel generator sets that reliably adapt to harsh environments such as oilfields and offshore platforms.

Use our highly reliable container-type generator sets to ensure your power supply-here it is stable and convenient to walk together, both efficient and durable.

Our Tier 4 containerized generators are high-powered --500 kW to 1250 kW-- units packaged in 30-foot or 48-foot ISO containers.

These systems integrate a high-performance generator within a specially designed container, providing a complete power generation solution that can be easily transported and deployed.
