

How much does solar panels cost in Grenada

Much is an adjective that refers to a large quantity, amount, or degree of something. It indicates a substantial extent or level of something, generally implying a significant or notable difference or ...

If we use the latest Jamaican energy auction as a yardstick, and make allowances for Grenada's small size, it's not unreasonable to estimate a PPA price of about 10-11 US cents/kWh.

Price includes everything: panels, battery, inverter, installation, permits, and 25-year warranty. No hidden fees. No surprises.

Installing a solar energy system on your home or building has never been easier. Call or email Power Shift and we will explain each step of the process and provide a free estimate for your solar project.

The country has abundant sunshine and relatively low solar panel costs, making it a prime location for solar development. The Grenada government is committed to increasing the use of renewable ...
