

Is there any solar power station generator in Tunisia

On 16 December 2025, in the central Tunisian governorate of Kairouan, a 120-megawatt solar power plant was officially commissioned, marking the country's largest operational solar photovoltaic facility ...

UAE-based developer AMEA power and the government of Tunisia have commissioned the country's largest solar project in Kairouan. The 120 MW project is expected to generate ...

Tunisia has signed contracts for four photovoltaic projects, totaling 500 MW, as part of the initial phase of its 1.7 GW tender. Set to be operational by 2027, these projects aim to generate 1 ...

With an installed capacity of 120 MWp, the solar plant is expected to generate approximately 222 GWh of clean electricity annually, enough to power around 43,000 households. It ...

The bottom right of the map lists announced solar projects where final locations have yet to be confirmed. An inset provides greater detail for the area around Tunis.

Self-generation is growing as businesses and households adopt solar. The Ministry estimates nearly 400 MW of low-voltage PV capacity installed, with 70 MW operational, highlighting ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW. France's Qair International ...

Currently, the British group NurEnergie (Figure 5) is planning to build the 4.5 GW TuNur solar power project in the governorate of Kebili, an integrated solar energy project linking Tunisia's sunny desert ...

The power station is a ground-mounted solar project sitting on 200 hectares (490 acres). It comprises 220,416 modules, each with capacity of 545W, capable of generating 120 megawatts at ...

UAE-based renewables developer AMEA Power has commissioned a 120MW solar PV plant in the central Tunisian governorate of Kairouan, the country's largest operational PV project.
