

Kenya Airport Energy Storage Power Station

Swissport Kenya Limited in partnership with Mettle Solar Ofgen and Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) today unveiled Kenya's first solar-powered ...

NAIROBI, Kenya, Feb 3 - Kenya has renewed its call for faster deployment of solar energy and battery storage as Intersolar Africa 2026 officially opened at the Sarit Expo Centre in Nairobi, ...

Jomo Kenyatta International Airport (JKIA) is now proud home of East Africa's first solar-powered cargo facility owned by Swissport Kenya Limited.

The BESS project has been identified as a possible solution to increased proportion of intermittent energy to the Kenyan power system and energy curtailment during off peak hours. The ...

This training course explores how solar generation, energy storage, and microgrid architectures enable airports to reduce emissions, lower operating costs, and ensure reliable power for mission-critical ...

Kenya Electricity Generating Company (KenGen) is powering forward with its green energy ambitions, officially launching the prequalification process for a 42.5 MWac solar PV plant ...

Nairobi, Kenya -- Intersolar Africa 2026 at Sarit Expo Centre highlighted a pivotal shift in the continent's renewable energy landscape: energy storage is no longer a supporting technology -- ...

Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage solutions as Intersolar Africa 2026 officially opened on Tuesday at the ...

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply.

Discover how Kenya's energy storage battery sector is revolutionizing renewable energy adoption and addressing power challenges. This article explores key applications, market trends, and success ...
