

Nordic Energy Storage Power Station Company

Energi has acquired a majority stake in the Isokangas energy storage project near Oulu. The 50 megawatt/1hour energy storage facility to be completed in 2026 is a significant milestone in ...

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW ...

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality in Finland's ...

International developer and IPP Nordic Solar has entered the BESS market with a 10MWh project on home soil, in Denmark. The BESS will be in Borup in the municipality of Hillerod ...

It is an honor to inaugurate the largest energy storage investment in the Nordic region. Thanks to the efforts of Ingrid Capacity and BW ESS, we are reducing grid congestion and enabling ...

Explore the top energy storage investors in the Nordics, featuring names like Equinor and EQT Group, shaping the future of energy.

We highlight Sweden's top 10 energy storage investors, who finance and deploy capital across grid-scale battery systems, hybrid renewables, and other storage technologies. These leaders are ...

"Think of supercapacitors as the sprinters of energy storage," says Dr. Lena Fjellström, project lead at Nordic Energy Research. "They're not here to replace marathon-runner batteries, but ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. ...
