

# Photovoltaic Inverter National Holding Company

The firm focuses on solar energy, offering a comprehensive range of products that includes solar inverters, energy storage systems, and electric vehicle (EV) chargers.

Sineng Electric is a global leader in power electronics, specializing in the development and production of advanced photovoltaic (PV) inverters, energy storage inverters, and digital power products.

INVT Solar is a professional solar inverters manufacturer and national high-tech enterprise. Founded in 2015, it is a wholly-owned subsidiary of INVT. It mainly offers PV inverter solutions and energy ...

Under Dr. Qu's leadership, we have grown into one of the world's largest solar photovoltaic products and energy solutions providers, as well as one of the largest solar power plant developers globally.

The company offers semiconductor-based microinverter, which converts energy at a single solar module level and combines it with its networking and software technologies to provide advanced energy ...

Leveraging technological innovation and extensive expertise, Sineng delivers a wide range of energy storage products, including hybrid inverter, battery and power conversion system.

List of Inverter manufacturers. A complete list of component companies involved in Inverter production.

The company utilizes a thin film semiconductor technology to achieve enhanced efficiency and sustainability in its solar modules.

The company's main product is series inverters, which are indispensable core equipment in solar photovoltaic power generation systems. It ranks among the top five in the global cluster ...

Operating under the Solis brand, our solar inverter product line employs innovative string technology, ensuring top-tier reliability validated through rigorous international certifications.
