

Sao Tome Glass solar Project

Discover how photovoltaic glass technology is transforming energy independence in island nations like São Tomé and Príncipe. This article explores market opportunities, technical innovations, and why ...

The 70MWp solar PV part of the project was completed in April 2023, becoming the first standalone solar PV plant to connect to the transmission network. Power cycles in CSP thermal energy plants ...

This project presents an investment opportunity to develop critical renewable energy infrastructure in São Tomé and Príncipe, including solar photovoltaic plants, mini-hydropower ...

Partnering with the country's public utility EMAE, we're set to install photovoltaic plants at São Tomé's national airport and on Príncipe Island. Spearheaded by our vice chairman Basilio ...

As the country transitions toward renewable energy, we aim to create transparent and competitive processes to attract qualified international investors, ensuring long-term energy sustainability. Stay ...

Our dedicated engineer, Sergio, embarked on an exciting journey to commission JGH's second solar project in the picturesque landscape of Sao Tome. The scope of this project ...

SunContainer Innovations - As global demand for renewable energy surges, photovoltaic (PV) glass has emerged as a game-changer in solar technology. This article explores how Sao Tome's advanced ...

An entrepreneur standing on the coast of Sao Tome and Principe sees immense potential. With abundant, year-round sunshine, the archipelago seems perfectly suited for solar ...

Release, the off-grid business of Norwegian renewable power producer Scatec (OSL:SCATC), has signed a lease agreement with the Water Supply and Electricity Company of Sao ...

Scatec to build 11 MW solar plant in Água Casada with EMAE Project to cut 13,000 tons CO2 yearly, reduce diesel dependence São Tomé targets 50% renewables, 100% electricity access ...
