

Solar power generation subsidies in arrears

As we consider the critical reforms in the reconciliation process, I rise today to make the case for why we must eliminate the generous federal subsidies for wind and solar energy, paid for by ...

More than 20 states sued the EPA on Thursday, challenging its cancelation of a \$7 billion program that aimed to make solar power accessible to low-income households.

Renewable energy, particularly wind and solar power, is receiving substantial subsidies in many countries worldwide. Unfortunately, wind and solar energy are unreliable and very expensive, ...

In a significant shift in energy policy, President Donald Trump has taken decisive action to dismantle subsidies for wind and solar power. By signing an executive order, he aims to eliminate ...

Meantime, more companies are canceling green energy projects. The 39-year-old SunPower is the latest solar rooftop business to fail this year. Others include Titan Solar Power and Sunworks.

The president issued an order last month directing the Treasury Department to rewrite rules for the remaining tax credits available to wind and solar projects.

Section 1. Purpose. For too long, the Federal Government has forced American taxpayers to subsidize expensive and unreliable energy sources like wind and solar.

These are among the major clean energy investments now in question after Republicans agreed earlier this month to quickly end U.S. subsidies for solar and wind power as part of their ...

Congressional Republicans passed the One Big, Beautiful Bill, which put the brakes on federal clean energy subsidies by terminating investment and production tax credits for wind and solar...

Not only does solar power receive tax subsidies, but it has also garnered sizable federal loans, particularly during the Obama-Biden administration. Solar plants are touted to operate for ...
