

Somalia energy efficiency

The main challenges facing the energy sector comprise the absence of legal and regulatory framework to formalize the sector and lack of skilled manpower. Bank support seeks to address these deficiencies.

Find relevant information for Somalia on energy access (access to electricity, access to clean cooking, renewable energy and energy efficiency) on the Tracking SDG7 homepage.

Access country profiles and data on electricity access, renewable energy, energy efficiency, and clean cooking to inform sustainable energy investments and reforms.

The Global Renewables and Energy Efficiency Pledge, made at the 2023 UN Climate Conference in Dubai (COP28), alongside international climate finance commitments, offers a window of opportunity ...
