

COLLAPSECON is the next evolution of shipping containers - a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the ...

The systems, CDS Solar states, are standard containers with inverters, controllers, batteries, and hinged panel arrays built into them, which open while in use and fold up into a compact form to ship.

In case of direct unloading a container in Sweden, the container is delivered to the terminal no later than the following working day. When working a "drop system" on chassis in Sweden, the containers are collected ...
