

The world's largest grid-side energy storage

On June 26, the construction of the world's largest power generation-side energy storage project in Ulan Chab, Inner Mongolia, officially began. This 1 GW/6 GWh project, using lithium iron ...

China-headquartered Sungrow announced on Tuesday the signing of three landmark energy storage contracts with Saudi Arabia's investment group AlGihaz Holding, amounting to the ...

Recently, BYD Energy Storage and Saudi Electricity Company successfully signed the world's largest grid-scale energy storage projects contracts with a capacity of 12.5GWh at the time.

On July 15, Sungrow and Saudi Arabia's AlGihaz successfully signed the world's largest energy storage project with a capacity of up to 7.8GWh! The project is located in three sites in Saudi ...

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone ...

Following the landmark agreement with Saudi Electricity Company (SEC) in early 2025 for the world's largest 12.5GWh grid-side energy storage project, BYD Energy Storage has launched ...

In late 2025, Envision connected the world's largest single-site 4 GWh energy storage power station to the grid in Inner Mongolia, completing a major regional storage cluster.

Discover the world's largest battery storage systems and how they are crucial for balancing renewable energy supply and demand, stabilizing the grid, and reducing reliance on fossil ...

But that's just the appetizer. From Saudi Arabia's desert megaprojects to Chile's solar-powered storage giants, the race to build the world's largest grid-side energy storage systems is ...
