Why should Timor-Leste invest in solar & storage infrastructure?

José de Ponte added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country". José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

Why did DLA Piper advise Eletricidade de Timor-Leste?

DLA Piper advised Eletricidade de Timor-Leste on its first utility-scale solar PV and battery storage project with a 100MW capacity, marking a major milestone in the country's renewable energy transition.

How much money will Timor-Leste spend on a solar system?

The project allocated USD 5.78 million to Timor-Leste to support clean energy infrastructure, reduce reliance on fossil fuels, and improve national resilience to climate-related risks. The solar system installation is expected to be completed by August 2025.

Are solar panels a good idea for Timor-Leste?

The Ambassador of Japan to Timor-Leste, H.E. KIMURA Tetsuya, in his remarks, shared: "I understand that solar panels are extremely helpful. Every time I walk around and see solar panels installed, I feel very happy and encouraged by this visible progress. It's exciting to witness this kind of development taking place."

The delegation visits the solar control panel room at INFPM as part of a comprehensive tour that included the battery storage area, cold chain storage units for medicines and vaccines, and ...
