

Wind solar and energy storage projects under construction

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

Despite industry challenges, America quietly forges ahead with ambitious clean energy projects like SunZia Wind, Champlain Hudson Power Express, and Gemini Solar.

Explore the top 5 ambitious renewable energy projects in the U.S., featuring solar, offshore wind, and battery storage set to transform the energy landscape.

Comprehensive news & insights into global renewable energy projects, covering key milestones in corporate PPAs, equipment orders, financing, and capacity expansions.

The top renewable energy construction projects include Gujarat's 30 GW hybrid park and Australia's 50 GW TeraWatt Solar Project.

Onsite construction currently underway on 29 projects totaling 3.9 gigawatts of onshore wind, solar and battery energy storage systems (BESS) across 11 U.S. states

The map features AES" projects currently under construction and in operation as of November 4, 2025. For more detailed information, please refer to our Investor Fact Sheet.

Here are the 25 biggest solar, wind, and battery-storage installations completed in the U.S. in 2024. Canary Media"s chart of the week translates crucial data about the clean energy ...

Among them, 18 energy storage projects are supporting the construction of photovoltaic or wind power facilities, and the other 15 are independent energy storage.

RWE, the third largest renewable energy company in the U.S., is progressing on its commitment to expand its footprint in the United States and currently has nearly 4 gigawatts (3,875 ...
